

Rethinking public participation

Our Walk App is VOLCANO's digital tool to make participation accessible to citizens from all ages and walks of life.

Through Our Walk App, people capture elements of the city they appreciate, dislike and imagine should be different. They can also react to each other's pictures, and express agreement or disagreement.

Der er nok natur god udsigt og der er farver

This wealth of visual and textual inputs is then used to inform city making processes.

Playgrounds for kids all ages...

"Dårlig legeplads fordi det kun er til babyer" 😞

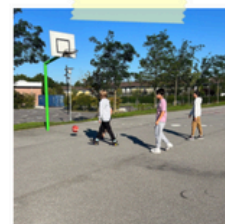

...and for parents

"Det er godt fordi mange kan gynges eller en ens forældre kan holde øje"

Sports halls and fields

"Jeg kan spille fodbold her. Og det elsker jeg."

Benches and picnic tables

"Flere bænke og flere picnic steder"
